WORK EXPERIENCE

Software Developer

Ekofib [01/06/2024 – Current]

Country: Norway

Working remotely as a Software Developer for Norwegian Business, I am responsible for creating and maintaining high-quality applications. My role involves both back-end and front-end development, ensuring seamless functionality and exceptional user experiences.

Jr. PHP Developer

Code creatives [01/01/2024 – 31/05/2024]

Country: Pakistan

I excelled in creating dynamic and efficient web applications. During my time I primarily used PHP along with frameworks like Laravel and CodeIgniter, as well as MySQL for database management. Contributed to various web development projects that aimed to improve user experiences and overall functionality. Worked closely with other team members.

EDUCATION AND TRAINING

BS Information Technology

Shaheed Benazir Bhutto University [2020 – 2023]

Address: 67450 Shaheed Benazirabad (Pakistan) | Website: <https://www.sbbusba.edu.pk/> | Final grade: 3.24/4

Successfully completed a Bachelor of Science in Information Technology at Shaheed Benazir Bhutto University, The program equipped me with a solid foundation in programming, software development methodologies, and IT infrastructure. I am now a Software Developer and am eager to advance my skills in Software Engineering or Computer Science by pursuing a Master's degree.

DIGITAL SKILLS

Front-end

HTML / CSS / JavaScript / React / Bootstrap / Material - UI

Back-end

PHP / Laravel / CodeIgniter / Node.js / Express / REST api / SQL

Other

Git / Github / AWS / Docker

CERTIFICATIONS

Web Engineering

- Completed comprehensive Web Engineering certification covering modern development technologies.
- Gained proficiency in frontend and backend development, including responsive design..
- Demonstrated full-stack web application development skills through hands-on projects.

Link: <https://navttc.gov.pk/NVQs/LessonPlanCourseContent/WebDesigningandWebEngineering.pdf>

Front End Development

- In-depth course focusing on front end development.
- Proficiency in building interactive user interfaces and web applications using modern front end technologies.
- Successful completion of projects demonstrating proficiency in implementing front end solutions using the specified libraries.

Link: <https://www.freecodecamp.org/certification/koraizubair/front-end-development-libraries>

JavaScript Algorithms & Data Structures

- Thorough understanding of fundamental algorithms and data structures implemented in JavaScript.
- Familiarity with algorithmic problem solving techniques and strategies.
- Successful completion of projects demonstrating the implementation and optimisation of algorithms and data structure in JavaScript.

Link: <https://www.freecodecamp.org/certification/koraizubair/javascript-algorithms-and-data-structures>

Responsive Web Design

- Comprehensive course covering principles and techniques of responsive web design.
- Proficient in using HTML, CSS & JavaScript to create responsive and user friendly web interfaces.
- Practical knowledge in optimising websites for various screen sizes and resolutions.
- Successfully completed projects demonstrating responsive design principles and best practises.
